### APRAS member section: ThPRS

In 1970, Thailand submitted a request to establish and register the Society of Plastic and Reconstructive Surgeons of Thailand with the objective of maintaining medical standards, ensuring effective healthcare outcomes, and fostering unity and harmony among its members. This initiative aimed to facilitate smooth operations and achieve the society's goals.

Later, in 1983, discussions were held among plastic surgeons in the East Asian region to form a society specifically dedicated to aesthetic plastic surgery within the region. As a result, Thailand established the Thai Society of Aesthetic Plastic Surgeons (ThSAPS) in 1985.

Thus, Thailand now has two closely related societies:

#### **The society of plastic and reconstructive surgeons of Thailand (ThPRS)**

The mission of ThPRS is to advance quality care to plastic surgery patients by encouraging high standards of training, ethics, physician practice, and research to support its members in the provision of excellent patient care. The ThPRS will provide education, advocacy, practice support, and enhanced public awareness of the value of plastic surgery while fostering the highest professional, ethical, and quality standards for patient safety and requires its members to operate in accredited surgical facilities that have passed rigorous external review of equipment and staffing.

#### **The Society of Aesthetic Plastic Surgeons of Thailand (ThSAPs)**

The general public should be aware that working in the field of cosmetic surgery It's not just a doctor's desire or interest. But there must be several important elements. The doctors should have more training to gain more knowledge and skills to become good aesthetic or cosmetic surgeons that can deliver the best and safest outcomes to the needed people.

The Society of Aesthetic Plastic Surgeons of Thailand is a society of plastic surgeons who have experience in cosmetic surgery. Our main goals are to monitor and deliver up-to-date knowledge to our members for the creation of beautiful and safe outcomes for the people

#### **The objectives of The Society of Aesthetic Plastic Surgeons of Thailand**

1. It is a gathering place of knowledgeable and well-behaved aesthetic plastic surgeons.
2. Promote the advancement of aesthetic plastic surgeons in education, research, and exchange of

knowledge.

3. Disseminate science to help and advise people, members of the Department of Medicine, and organizations in the case of cosmetic surgery.
4. To control members in the cosmetic surgery profession to be correct, high quality, and with the same standards. and safe for the public.
5. Encourage, collaborate, assist, and strengthen relationships between members.
6. It is an organization that will strengthen relationships and exchange knowledge with the organization. International cosmetic surgeons. This is not related to politics.

### International Collaboration of the society of plastic and reconstructive surgeons of Thailand (ThPRS)

The Society of Plastic and Reconstructive Surgeons of Thailand (ThPRS) has a long-standing history of international collaboration. Since 1988, ThSAPS has been an affiliate member of the Oriental Society of Aesthetic Plastic Surgery (OSAPS). Additionally, the society has been a member of the International Society of Aesthetic Plastic Surgery (ISAPS) since before 2008, consistently encouraging its members to join these two prestigious organizations.

ThSAPS and its members have played pivotal roles in hosting academic conferences, both on a smaller scale and at large international gatherings. Moreover, several ThSAPS members have served as board members and subcommittee members of OSAPS and ISAPS across various terms.

### Hosting International Conferences

**1990:** ThSAPS hosted the **2nd International Congress of OSAPS** at the Central Plaza Hotel, Bangkok, from November 27 to December 2, 1990. Dr. Thaworn Jarungsmith served as the Chairman of the Organizing Committee.

**2004:** ThSAPS hosted the **9th International Congress of OSAPS** at the Shangri-La Hotel, Bangkok, from December 6 to 8, 2004. Dr. Manat Setthachok chaired the Organizing Committee, and the event attracted 600 participants. The conference introduced **Minimal Invasive Surgery** techniques to attendees.

In conjunction, ThSAPS also organized the **First Live SRS (Sex Reassignment Surgery) Workshop 2004** at BNH Hospital, Sathorn, Bangkok, chaired by Associate Professor Dr. Preecha Tiewtranon.

**2014:** The **14th International Congress of OSAPS** was held at the PEACH Convention Center, Royal Cliff Beach Resort, Pattaya, from October 27 to 29, 2014. Associate Professor Air Marshal Dr. Kamol Watthanakrai chaired the Organizing Committee, and the event welcomed 460 participants. Simultaneously, ThSAPS hosted the **ISAPS Symposium 2014**, coordinated by Dr. Sanguan Kunaporn.

**2017:** ThSAPS hosted the **ISAPS Symposium Bangkok 2017**, in conjunction with the **18th ASEAN Congress of Plastic Surgery (ACPS)**, from March 8 to 10, 2017. Dr. Sanguan Kunaporn served as the event coordinator. This historic conference was the first to bring together representatives from all 10 ASEAN member countries since the inception of ACPS.
